INDEX—AUTHORS

Abboud, Raja T., 326
Acocella, Gianni, 1283
Adelroth, Elinor, 704
Aerts, Colette, 1334
Agusti-Vidal, A., 1336
Ahmed, Tahir, 1149
Ahn, Chai H., 438
Ahn, Sam S., 438
Ahrens, Joan, 768
Aikawa, T., 1182
Aizawa, H., 258
Akhwand, R., 1056
Albert, Richard K., 85, 89, 678
Aldarondo, Sigfredo, 442
Al Habet, Saed M. H., 1075
Allen, Julian L., 180
Allen, Steven J., 1111
Allison, Ronald C., 93, 1332
Alvarez-Sala, J. L., 354
Anderson, H. R., 270
Anderson, Richard A., 438
Andersson, R. G. G., 266
Ando, Masayuki, 177
Angel, Joseph H., 1283
Annesi, Isabella, 688
Anthonisen, N. R., 634, 930
Applelman, Maria D., 170
Araki, Shukuro, 177
Armstrong, John D., 951
Atassi, Kinan, 238
Aziz, Abdul, 1056
Bachand, Romeo T., 917
Balk, Robert A., 745
Balkovic, Edward S., 6
Bang, K. M., 1333
Barnes, Peter F., 170
Barnes, Peter J., 1289
Barrio, Juan L., 1094
Barritault, Lionel G., 493
Bar-Yishay, E., 180
Bascom, Rebecca, 248
Bass, John B., Jr., 431
Bates, Joseph J., 659
Bauer, Michael A., 1203
Baughman, Robert P., 167, 771
Baumgart, Stephen, 1020
Bayol, Anne, 57
Beardsmore, C. S., 180
Beaudoin, Helene, 653
Beck, Genevieve, 1040
Becker, A. B., 258
Beehler, Connie J., 281
Begin, Raymond, 1176
Béll, Randall C., 12
Benet, Leslie Z., 34
Benfield, John R., 590
Berend, Norbert, 777
Berger, Elaine M., 44, 281
Bernstein, I. Leonard, 175, 719
Bewtra, Againdra K., 994
Bhalla, D. K., 572
Bhattacharya, Alok, 205
Bhattacharya, Jahar, 854
Bhattacharya, Sudha, 205
Bhatti, A. H., 1056
Biagini, Raymond E., 719
Bignon, Jean, 238
Bishop, Michael J., 752
Bizios, Rena, 548
Black, J. L., 498
Bland, J. M., 270
Bland, Richard D., 305
Bleecker, Eugene R., 243, 248, 925
Block, Edward R., 1196
Blythe, Stephen, 1246
Boat, Thomas F., 784
Boatman, Edwin S., 752
Boctor, Moktar, 1176
Boe, Jacob, 1036
Borson, Benjamin, 612
Bossé, Judith, 1176
Boucher, Richard C., 17, 938
Bourgouin-Karaouni, Dominique, 1140
Bouvot, J. L., 983
Bove, Alfred A., 101
Bower, Jeffrey H., 146
Bradley, T. Douglas, 217, 920, 1119
Bradly, Patrick W., 726
Brady, Mary, 1025
Braier, Karyn, 115
Braman, Sidney S., 805
Brater, D. Craig, 34
Braude, Peter D., 1209
Braude, Stanley, 867
Breuer, Raphael, 471
Brignell, Michael J., 1219
Brink, Charles, 57
Brockmann, Douglas C., 885
Brody, Arnold R., 128
Brooks, Stuart M., 175
Brouillette, Robert T., 609, 917
Brown, Jill B., 938
Bryan, Charles L., 146
Buck, Marion G., 975
Bullock, Ward E., 771
Burdon, Jonathan G. W., 1319
Burhop, Kenneth E., 548
Burke, Conor M., 334
Burke, J., 1145
Burns, C. Braddock, 634
Burstin, Stuart J., 1072
Busse, William W., 969
Butler, John 85, 89
Calore, James D., 471
Campbell, Edward J., 435
Campbell, Peter B., 1029
Carlson, Richard W., 873
Carson, Johnny L., 784
Cartier, André, 990
Cassidy, James T., 699
Castaing, Y., 910
Cauthen, George M., 857
Cerrina, Jacques, 57
Cespedes, Edmundo, 662
Chandler, David B., 542
Chang, Jui C., 538
Chang, Shaw F., 254
Charan, Nirmal B., 85, 89
Chartrand, D. A., 1119
Chen, Melissa G., 17
Cheney, Frederick W., 752
Cheng, Pi-Wan, 784
Cherniack, Neil S., 791
Cherniack, Reuben M., 4, 1110
Chiu, Jen-Fu, 566
Chrétien, Jacques, 493
Christensen, Thomas G., 471
Chung, K. F., 258
Churg, Andrew, 125
Claude, Jean-Roger, 1172
Cloutier, Michelle M., 1158
Coates, Geoffrey, 862
Cochrane, Charles G., 1258
Colice, Gene L., 1315
Collignon, Marie Anne, 493
Collins, Christopher, 763
Collins, David V., 951
Collins, John A., 885
Concepcion, Luzminda, 1229
Connaughton, John J., 559
Contreras, Gustavo, 488
Conway, William, 214
Coonrod, J. Donald, 1337
Cooper, J. Allen D., Jr., 108, 975
Cooper, Jeffrey A., 734
Cosgrove, Michele M., 170
Cota, Kathy, 513
Côté, Yvan, 1176
Crapo, Robert O., 856, 951
Crawford, Jack T., 659
Creticos, Peter S., 1102
Crocker, T. T., 572
Crouch, Ed, 1163
Crowle, Alfred J., 44, 1052, 1287
Cruz, Edgardo, 488
Crystal, Ronald G., 476
Cummings, Steven R., 449, 453
Currie, Randall B., 146
Cutillo, Antonio G., 951
Dai, Wan, 699
Dalle, Daniel, 1176
D'Alonzo, Gilbert E., 1135
Daniel, Thomas M., 199, 662, 1273
Dantzker, David R., 1111, 1135
Davila, Fidel, 1336
Davis, Jonathan M., 1020
Debanne, Sara M., 662
de Cremoux, Hubert, 238

Acetylsalicylic acid and indomethacin reduce intrapulmonary shunt in experimental pneumococcal pneumonia, 520
Acid, intraesophageal perfusion of, increases bronchomotor response to methacholine and to isocapnic hyperventilation in asthmatic subjects, 986
Acquired immunodeficiency syndrome
  analysis of plasmids in *M. avium-intracellulare* isolates from persons with, 659
  intensive care of patients with and outcome and changing patterns of, 891
  Pneumocystis carinii pneumonia presenting as cavitating and noncavitating solitary pulmonary nodules in patients with (case report), 1094
  update on. Report on the Second International Conference on AIDS (special update), 859
Adenosine triphosphate, effects of, on pulmonary circulation in COPD, 1140
Adult respiratory distress syndrome
  depressed prostaglandin E_1 and 5-hydroxytryptamine removal in patients with, 739
  effects of prostaglandin E_1 on, in septic primates, 885
  and endotoxins (correspondence), 180
  incidence, site, and outcome of infections in patients with, 12
Aerosolization of C5A des arg, airway hyperreactivity and inflammation produced by, 777
Aerosols, bacterial, lack of, associated with heat and moisture exchangers, 214
Agarose gel isoelectric focusing, demonstration of intrapleural immunoglobulin synthesis by, 1036
Agonists *in vitro*, histamine and isoproterenol, compared with bronchial muscle responses to histamine *in vivo*, 57
Air
  cold
    determinants of response to eucapneic hyperventilation with, in population-based study, 502
    inhalation of, has cumulative bronchospastic effect when inhaled in consecutive doses for progressively increasing degrees of ventilation, 990
  -flow
    limitation, chronic, characteristics of bronchial hyperresponsiveness in smokers with, 498
    obstruction
      chronic, independent influence of reversibility of, and nonspecific hyperreactivity on long-term course of lung function in, 276
  irreversible, evaluating effects of chronic therapy in patients with, 935
Airway(s)
  central and peripheral, as determinants of ventilatory function in patients with chronic bronchitis, emphysema, and bronchial asthma, 1182
  challenge with allergen, nasal, mediator release after (correspondence), 1102
  disease
    asbestos exposure and retention as determinants of, 1176
    persistent, caused by toluene diisocyanate (case report), 175
  epithelium, effects of endotoxin and tannin isolates from cotton bracts on, 1158
  hyperreactivity and inflammation produced by aerosolization of C5A des arg, 777
  hyperresponsiveness
    antigen-induced, inhibition of, by OKY-046 in allergic dogs, 258
    hydroxyurea inhibits, in guinea pigs by granulocyte-independent mechanism, 1213
  muscle activation, upper, nasal CPAP therapy, and obstructive sleep apnea, 555
  narrowing, maximal *in vivo*, histamine compared with methacholine in, 714
  neural control of, in health and disease (state of art), 1289
  obstruction,
    can thoracic gas volume be measured in infants with (correspondence), 180
    diffuse, role of, in hypercapnia of obstructive sleep apnea, 920
  pressure, continuous positive
    diaphragm pacing and (case report), 1321
    therapy, nasal, upper airway muscle activation, and obstructive sleep apnea, 555
  reactivity
    and enhanced IgE-dependent basophil histamine release in asthma, 969
    heightened, requirement for polymorphonuclear leukocytes in, in animal model, 62
  responses, asthmatic, to muscarinic, histaminergic, and allergenic stimuli, effects of verapamil on (correspondence), 1334
  of sheep, deposition, clearance, and effects of aerosolized amiloride in, 938
  size, large, in healthy nonsmokers, 951
Albuterol and terbutaline, comparison of tremor responses to orally administered, 708
Allergen, mediator release after nasal airway challenge with (correspondence), 1102
Almitrine
  bismesylate, ventilatory effects of, in congenital central hypoventilation syndrome, 917
  comparison of effects of, on pulmonary arterial pressure and right ventricular ejection fraction in hypoxic chronic bronchitis and emphysema, 559
  improvement in ventilation-perfusion relationships by, in patients with COPD during mechanical ventilation, 910
Alpha-1
  -antitrypsin deficiency, PiZZ evaluation of danazol therapy for patients with, 476
  -protease inhibitor in bronchoalveolar lavage, methylene blue decreases function activity of (Note), 326
Altitude pulmonary edema, high, and hypoxic pulmonary vasoconstriction (case report), 332
Alveolar
  lining material and antibacterial defense (correspondence), 1337
  liquid absorption and clearance (editorial), 204
Alveolar macrophages. *See* Macrophages
Alveolitis, asbestos, asbestos exposure and retention as determinants of, 1176
America, North
  case of melioidosis originating in (case report), 170
  pediatric pulmonology in, coming of age (editorial), 849
American Thoracic Society
  Amberson lectures, 1986, J. Burns, 812
  Position paper on
    computer guidelines for pulmonary laboratories, 628
    pulmonary function laboratory personnel qualifications, 623
    quality assurance in pulmonary function laboratories, 625
  Statement on
    diagnosis of nonmalignant diseases related to asbestos, 363
    treatment of tuberculosis and tuberculous infection in adults and children, 355
  Trudeau medal for 1986, 837
  Will Ross medal for 1986, 839

Amiloride, aerosolized, deposition, clearance, and effects of, in sheep airways, 938
Amnionic membranes, relative contribution of oxidants and elastase to fibronectin release from, 134
Anaphylaxis, canine, prevention of, with isoproterenol, 243
Anastomoses, bronchopulmonary
factors affecting bronchial blood flow through, in dogs, 85
hypoxia and hypercarbia increase bronchial blood flow through, in anesthetized dogs, 89
Aneuploidy, chromosomal, in sarcoid granuloma cells, 300
Angiotensin-converting enzyme
activity from serum, lungs, and cultured pulmonary artery endothelial cells, bleomycin inhibition of, 73
and investigation of diurnal variation, the effect of large dose of prednisolone, and prednisolone pharmacokinetics in patients with sarcoidosis (Note), 1075
serum, changes in, during cardiopulmonary bypass, 79
Anisocoria, migratory, a novel clinical entity (correspondence), 843
Antibody
-based enzyme-linked immunosorbent assay for determination of immune complexes in clinical tuberculosis, 205
responses, pulmonary and serum isotypic, of mice to live and inactivated influenza virus, 6
specific bronchoalveolar lavage IgA, in patients with summer-type hypersensitivity pneumonitis induced by *Trichosporon cutaneum* (case report), 177
Antigen(s)
Candida, dynamics of reactivity to tuberculin and, in institutionalized patients (Note), 1072
coccidioidal, development of dermal hypersensitivity to, associated with repeated skin testing, 1045
-induced airway hyperresponsiveness, inhibition of, by OKY-046 in allergic dogs, 258
Antioxidant deficiency, is it related to chronic obstructive pulmonary disease, 285
Apnea
obstructive sleep
nasal CPAP therapy, upper airway muscle activation, and, 555
role of diffuse airway obstruction in hypercapnia of, 920
sleep
effect of chronic nocturnal oxygen administration upon, 925
physiologic basis of therapy for (state of art), 791
syndrome, central sleep, clinical and physiologic heterogeneity of, 217
Apoprotein, purified, reconstitution of surfactant activity using, measured *in vitro* and *in vivo*, 1258
Arteriovenous malformations, pulmonary, critical update of (pulmonary perspective), 334
Artery endothelial cells, pulmonary, bleomycin inhibition of angiotensin-converting enzyme activity from, 73
Asbestos
content, lung in long-term residents of a chrysotile mining town, 125
diagnosis of nonmalignant diseases related to (ATS statement), 363
exposure and retention as determinants of airway disease and asbestos alveolitis, 1176
-induced pulmonary fibrosis, pulmonary and systemic changes in, 653
inhalation, time course of chemotactic factor generation and the corresponding macrophage response to, 128
Asbestosis, correlation of bronchoalveolar lavage and clinical and functional findings in (correspondence), 1335
Aspiration
pulmonary edema, canine acid, effects of plasmapheresis and hemofiltration on, 222
staging, transbronchial needle, of bronchogenic carcinoma, 146
Asthma
airway responses in, effects of verapamil on (correspondence), 1334
bronchial, central and peripheral airways as determinants of ventilatory function in patients with, 1182
chronic
natural immunity to dust mites in, 962
stable, orally administered nifedipine in, 262
do physicians need objective measurements to diagnose, 704
effect of inhaled clonidine in patients with, 266
enhanced IgE-dependent basophil histamine release and airway reactivity in, 969
inhalation of 0.33 ppm NO_2 potentiates exercise-induced bronchospasm in patients with, 1203
intraesophageal perfusion of acid increases bronchomotor response to methacholine and to isocapnic hyperventilation in subjects with, 986
late response in, requirement for polymorphonuclear leukocytes in, in animal model, 62
platelet kinetics in stable atopic patients with, 983
platinum, ozone enhancement of, in primate model, 719
strength and endurance of inspiratory, expiratory, and limb muscles in, 999
terminology (correspondence), 1102
Atropine, comparative absorption of inhaled and intramuscularly administered, 254
Autoradiography, analysis of transport pathway by, 572
Bacille Calmette-Guérin, granulomatous pneumonitis induced by, in mice and its treatment with cyclosporin A, 296
Bayesian approach to estimating probability of malignancy in solitary pulmonary nodules, 449
Beta-
lactamases, characterization of, in *M. fortuitum*, role of beta-lactam resistance and evidence of partial inducibility, 1276
-2 adrenergic agonist therapy, systemic, effect of, on pulmonary hypertensive response to chronic hypoxia in rats, 763
Bird fancier's lung after unusual exposure to avian protein (case report), 1319
Bleomycin inhibition of angiotensin-converting enzyme activity from serum, lungs, and cultured pulmonary artery endothelial cells, 73
Blood
flow, bronchial, through bronchopulmonary anastomoses
factors affecting, in dogs, 85
hypoxia and hypercarbia increase, in anesthetized dogs, 89
transfusion, effect of, on oxygen delivery and consumption in patients with sepsis, 873
Body weight and respiratory muscle function in COPD (editorial), 646

Renal function, impaired, ethambutol kinetics in patients with, 34
Respiratory
disability rating schemes, alternative partial, 481
disease
mortality, effects of occupation and smoking on, 649
personal and family history of, and lung cancer risk, 466
dysfunction in patients with common variable hypogammaglobulinemia, 699
failure, adult, jet ventilation at 100 breaths per minute in, 897
function
correlative study of, in pathogenesis of experimental pulmonary histoplasmosis, 771
improvement in, with high-protein dietary therapy in adult with acid maltase deficiency (case report), 328
mechanics, endotoxin-induced changes in, role of lipoxygenase with cyclooxygenase products in, 1149
system and nutrition in COPD (NIH workshop summary), 347
Restriction fragment analysis of chromosomal DNA defines different strains of *M. tuberculosis*, 210
Rib cage motion, mechanisms of paradoxical, in patients with COPD, 683
Rifampin, emergence of primary drug-resistant strains of *M. tuberculosis* to, 446
Sarcoidosis
angiotensin-converting enzyme and investigation of diurnal variation, the effect of large dose of prednisolone, and prednisolone pharmacokinetics in patients with (Note), 1075
chemiluminescence of lung macrophages and blood leukocytes

in (correspondence), 1333
immunoregulation in, 1029
pulmonary, bronchoalveolar lavage fluid and serum complement activity in, 238
respiratory clearance of ^{99m}Tc DTPA and pulmonary involvement in, 493
simulating pulmonary veno-occlusive disease (case report), 809
Sclerosis, multiple, energy cost of walking and exertional dyspnea in, 1005
Sepsis
effect of fluid loading, blood transfusion, and catecholamine infusion on oxygen delivery and consumption in patients with, 873
primates with effects of prostaglandin E_1 on ARDS in, 885
Serum
angiotensin-converting enzyme, changes in, during cardiopulmonary bypass, 79
bleomycin inhibition of angiotensin-converting enzyme activity from, 73
complement activity and bronchoalveolar lavage fluid in pulmonary sarcoidosis, 238
IgG and IgE, mite-specific in natural immunity to dust mites in adults with chronic asthma, 962
isotypic antibody responses of mice to live and inactivated influenza virus, 6
and lung lavage, usefulness of tumor markers in (correspondence), 354
Sheep airways, deposition, clearance, and effects of aerosolized amiloride in, 938
awake
acute effect of paraquat on lung fluid balance and prostanoid production in, 1252
pulmonary vascular response to platelet-activating factor in and role of cyclooxygenase metabolites, 548
unanesthetized, with increased pulmonary vascular permeability, effect of exercise on lung lymph flow in, 862
Shunt, intrapulmonary
indomethacin and acetylsalicylic acid reduce, in experimental pneumococcal pneumonia, 520
and mechanical ventilation in patients with pneumonia (correspondence), 843
Single-breath helium dilution method in obstructive lung disease (correspondence), 634
Skin tests, repeated, development of dermal hypersensitivity to coccidioidal antigens associated with, 1045
Sleep
apnea
effect of chronic nocturnal oxygen administration upon, 925
obstructive
nasal CPAP therapy, upper airway muscle activation and, 555
role of diffuse airway obstruction in hypercapnia of, 920
physiologic basis of therapy for (state of art), 791
syndrome, central, clinical and physiologic heterogeneity of, 217
breathing route during, 115
Smoke-induced pulmonary edema, synthetic, ibuprofen prevents, 1145
Smokers
with chronic air-flow limitation, characteristics of bronchial hyperresponsiveness in, 498
cigarette, erythrocytes from, contain more glutathione and catalase and protect endothelial cells from hydrogen peroxide better than do erythrocytes from nonsmokers, 281
increased cathepsin B-like activity in alveolar macrophages and bronchoalveolar lavage fluid from, 538
non-, healthy, large airway size, lung size, and maximal expiratory flow in, 951
Smoking
eosinophils, and lung function, epidemiologic survey of, among 912 working men, 1172
and occupation, effects of, on respiratory disease mortality, 649
Soft palate and breathing (state of art), 311
Sound spectral analysis of voice-transmitted sound (Note), 167
Spectroscopy, ^{1}H nuclear magnetic resonance, noninvasive lung water quantitation by, 509
STATE OF ART
The immunology of mycobacterial diseases, 1062
Neural control of human airways in health and disease, 1289
Physiologic basis of therapy for sleep apnea, 791
Small cell lung cancer, 593
The soft palate and breathing, 311
Pulmonary vasculitis, 149
Statics, chest wall, effects of tetraplegia on, 121
Stenosis, tracheal, complicating cutaneous burns (case report), 1315
Streptococcus pneumoniae type I, adherence of, to tracheal epithelium of mice infected with influenza A/PR8 virus, 1040
Sulfur dioxide, longitudinal evaluation of pulmonary function in copper smelter workers exposed to (correspondence), 1332
Surfactant
activity, reconstitution of, using purified apoprotein and phospholipids measured *in vitro* and *in vivo*, 1258
phospholipids and lavage phospholipase A_2 in experimental *P. carinii* pneumonia, 526
Sympathomimetic, orally administered, orally administered nifedipine compared with, in chronic stable asthma, 262
Syndrome
acquired immunodeficiency
analysis of plasmids in *M. avium-intracellulare* isolates from persons with, 659
intensive care of patients with, outcome and changing patterns of, 891
Pneumocystis carinii pneumonia presenting as cavitating and noncavitating solitary pulmonary nodules in patients with (case report), 1094
update on, Report on the Second International Conference on AIDS (special update), 859
adult respiratory distress
depressed prostaglandin E_1 and 5-hydroxytryptamine removal in patients with, 739
effects of prostaglandin E_1 on, in septic primates, 885
and endotoxins (correspondence), 180
incidence, site, and outcome of infections in patients with, 12
central sleep apnea, clinical and physiologic heterogeneity of, 217
congenital central hypoventilation, ventilatory effects of almitrine bismesylate in, 917
Kartagener's, with motile cilia and immotile spermatozoa, 1233
Tannin isolated from cotton bracts, effects of, on airway epithelium, 1158
^{99m}Tc DTPA
effects of common therapeutic concentrations of oxygen on lung clearance of, 233
inhaled, bronchial and alveolar absorption of, 944
pulmonary epithelial clearance of, after thrombin-induced pulmonary microembolism, 734
respiratory clearance of, and pulmonary involvement in sarcoidosis, 493
Terbutaline and albuterol, comparison of tremor responses to orally administered, 708
Tetraplegia, effects of, on chest wall statics, 121
Theophylline
dosing, pharmacokinetic, randomized controlled clinical trial of, 1219
pulmonary disposition of, and its influence on alveolar macrophage bactericidal function, 1225
Thrombin-induced pulmonary microembolism, pulmonary epithelial clearance of ^{99m}Tc DTPA after, 734
Thromboendarterectomy, pulmonary artery, reperfusion pulmonary edema after, 1241
Thromboxane synthetase inhibitor (OKY-046), inhibition of antigen-induced airway hyperresponsiveness by, in allergic dogs, 258

Tidal volume determination in low birthweight premature newborns by inductive plethysmography, 1020
Toluene diisocyanate, persistent airway disease caused by (case report), 175
Tomography, computerized, *in vivo* tracheal pressure-area curves using, 585
Tracheal
area, lung volume, maximal expiratory flow, and FEV_1 in normal men and women, relationship between, 956
permeability in rats exposed to ozone, 572
pressure-area curves, *in vivo*, using computerized tomographic scans, 585
Tracheas, ferret, developmental changes in glycoconjugate secretion by, 784
Transport pathway, electron microscopic and autoradiographic analysis of, 572
Treadmill and cycle exercise, thoracoabdominal motion in response to, 1125
Tremor responses to orally administered albuterol and terbutaline, comparison of, 708
Trypsin inhibitory capacity, serial, and ceruloplasmin levels in prematures at risk for bronchopulmonary dysplasia, 1229
Tubercle bacilli, inhibition by pyrazinamide of, within cultured macrophages, 1052
Tuberculin
boosting, delayed, in elderly population (editorial), 857
reactions, time course and boosting of, in nursing home residents, 1048
test and studies of dynamics of reactivity to tuberculin and *Candida* antigen in institutionalized patients (Note), 1072
Tuberculosis
circulating immune complexes in (editorial), 199
a continuing problem (editorial), 2
field evaluation of enzyme-linked immunosorbent assay for serodiagnosis of, 662
future research in, prospects and priorities for elimination of (conference report), 401
opportunities for the elimination of (editorial), 201
primary drug-resistant, in children, 442
pulmonary
clinical trial of two short-course (6-month) regimens and a standard regimen (12-month) chemotherapy in retreatment of, in Pakistan, 1056
enzyme-linked immunosorbent assay using *M. tuberculosis* antigen 5 for diagnosis of, in China, 1273
short-course chemotherapy of, using new approach to drug dosage in initial intensive phase (pulmonary perspective), 1283
sputum-positive pulmonary, controlled clinical trial of 3- and 5-month regimens in treatment of, in South India, 27
and tuberculous infection, treatment of, in adults and children (ATS statement), 355
Tumor
killing by alveolar macrophages and blood monocytes, 532
markers, usefulness of, in serum and lung lavage (correspondence), 354
UK 49858, treatment of murine histoplasmosis with, 768
Ultrastructure and function, axonemal, in Kartagener's syndrome with motile cilia and immotile spermatozoa, 1233
Vascular permeability, increased pulmonary, effect of exercise on lung lymph flow in unanesthetized sheep with, 862
Vasculitis, pulmonary (state of art), 149
Vasoconstriction, hypoxic pulmonary, and high altitude pulmonary edema (case report), 332
Vasodilation, pulmonary, platelet-activating factor causes, in rats, 757
Veno-occlusive disease, pulmonary, sarcoidosis simulating (case report), 809
Ventilation
cold air inhalation has cumulative bronchospastic effect when inhaled in consecutive doses for progressively increasing degrees of, 990
effects of almitrine bismesylate on, in congenital central hypoventilation syndrome, 917
jet, at 100 breaths per minute in adult respiratory failure, 897
mechanical
inspiratory work load of patient-initiated, 902
and intrapulmonary shunt in patients with pneumonia (correspondence), 843
pattern of breathing during successful and unsuccessful trials of weaning from, 1111
withholding and withdrawing (NIH workshop summary), 1327
-perfusion relationship, improvement in, by almitrine in patients with COPD during mechanical ventilation, 910
Ventilatory function, factors associated with change in, and development of COPD in 13-year follow-up of Cracow study, 1011
Ventricle, right, increase in number and decrease in size of mitochondrial profiles in myocytes of, in dogs with experimental emphysema, 580
Verapamil
attenuation of permeability lung injury after phorbol myristate acetate by, 93
(correspondence), 1331
effects of, on asthmatic airway responses to muscarinic, histaminergic, and allergenic stimuli (correspondence), 1334
Virus
influenza A/PR8, adherence of type I *S. pneumoniae* to tracheal epithelium of mice infected with, 1040
live and inactivated influenza, pulmonary and serum isotypic antibody responses of mice to, 6
Vital capacity, involuntary breath-stacking as an alternative method for, 694
Walking and exertional dyspnea, energy cost of, in multiple sclerosis, 1005
Weaning
is it an art or a science (editorial), 1107
from mechanical ventilation, pattern of breathing during successful and unsuccessful trials of, 1111
Whooping cough in infancy, effect of, on subsequent lung function and bronchial reactivity, 270
Workers
copper smelter, exposed to SO_2, longitudinal evaluation of pulmonary function in (correspondence), 1332
male, eosinophils, smoking, and lung function, epidemiologic survey among 912, 1172
U.S. railroad, population-based case-control study of mesothelioma deaths among, 461
